

Training Title:

Supporting the Resilience of LGBTQ2IA+ Youth for Community-based Organizations

Session Details:

We know that all children need equitable access to key types of Positive Childhood Experiences (PCEs) for optimal health and well-being, and yet not all children find these experiences in their community and when interacting with community-based organizations. Join us as we discuss the research behind PCEs, the data highlighting the need to innovatively support LGBTQ2IA+ youth, and specific actions you can take to support the resilience of LGBTQ2IA+ youth at your organization.

Learning Objectives:

- Understand the unique needs of LGBTQ2IA+ youth,
- Learn how to utilize the Supporting Resilience of LGBTQ2IA+ Youth Toolkit for Community-based organizations
- Commit to one action to create more access to PCEs for LGBTQ2IA+ youth

Please share this information with anyone in your organization who may benefit from this training.

Register Here: [Community Based Organizations Registration Link](#)

If you are interested in learning more prior to the training, we encourage you to check out [our toolkit here](#).

This toolkit was developed in partnership with an advisory group of Lesbian, Gay, Bisexual, Transgender, Queer, Two Spirit, Intersex, Asexual, and Other Identities (LGBTQ2IA+) youth from across the Country. It is designed for those who work at community-based organizations to use for professional development.

*This is not necessary for participation in the training.

For training questions please contact: Melinda.Kneeland@mass.gov

Training Title:

Supporting the Resilience of LGBTQ2IA+ Youth for Educators

Session Details:

We know that all children need equitable access to key types of Positive Childhood Experiences (PCEs) for optimal health and well-being, and yet not all children find these experiences in their community and when interacting with community-based organizations.
